

SAFIO Websites and First Time Login Information

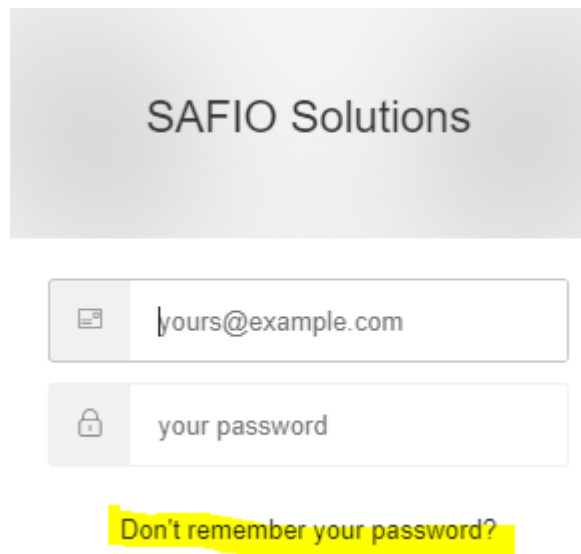

Welcome to SAFIO Solutions! There are two websites for the SAFIO platform listed below. They have links to each other within each system. The SAFIO application is used for forecasting and planning on a SKU level. The Tableau application has data analytics via dashboards and reports at more of an overview level. Below are your username and email for initial login. Please see further instructions. If you use Google Chrome for your preferred browser, see page 2 for additional steps.

- Username is email
- Initial password will be emailed to you

1. SAFIO Application

<https://safio.app/>

You will get a verification email upon setup of your account. You should change your password using the **forgot password link**.

The image shows a login form for SAFIO Solutions. At the top, there is a grey rectangular box with the text "SAFIO Solutions" in a dark grey font. Below this box are two input fields. The first field has an email icon on the left and contains the text "yours@example.com". The second field has a lock icon on the left and contains the text "your password". Below these fields is a yellow button with the text "Don't remember your password?" in black font.

2. Tableau (Reports and Analytics)

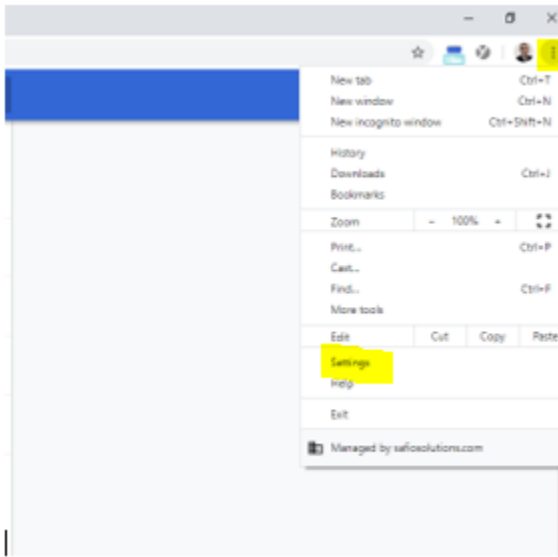

<https://bi.safiosolutions.com/#/signin>

Click the link to log in. You will be asked to change your password when you first sign in.

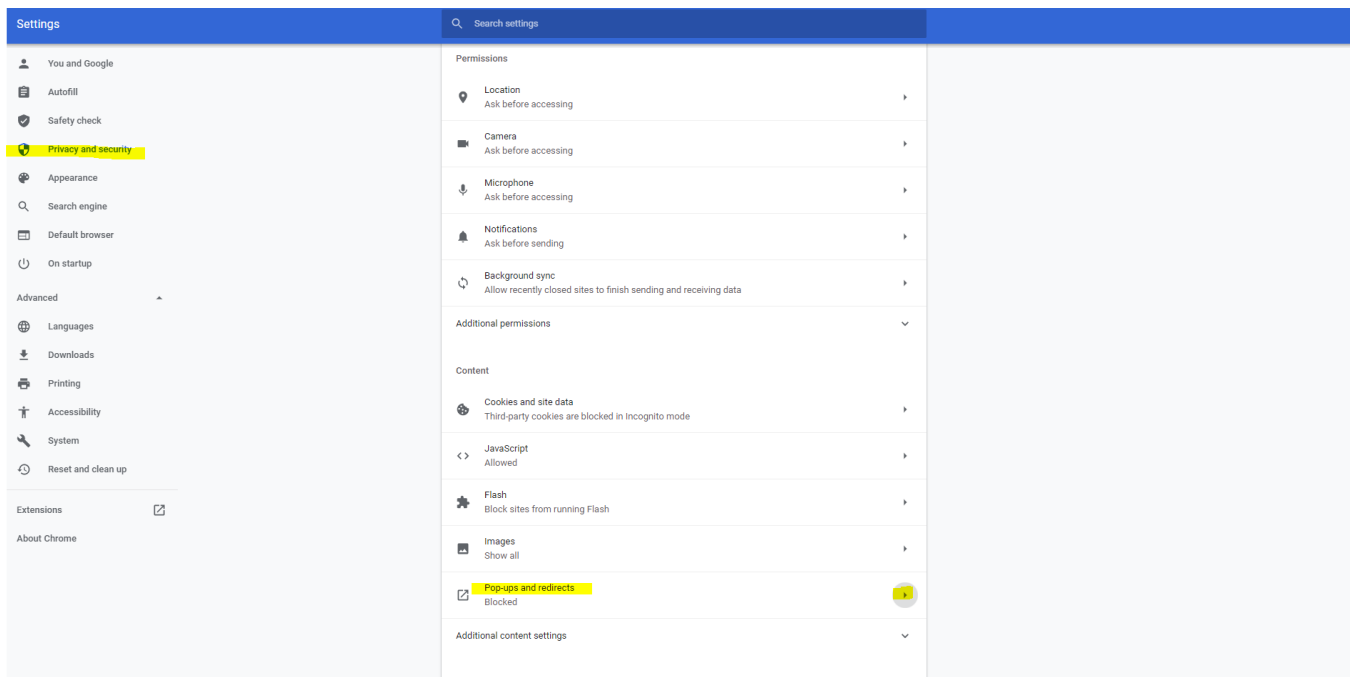

Google Chrome Pop Up Settings

To allow for multiple pop up windows from the SAFIO Solutions SAFT web application:

1. Click the three dots in the upper right corner of the screen for the drop down menu and select “Settings”

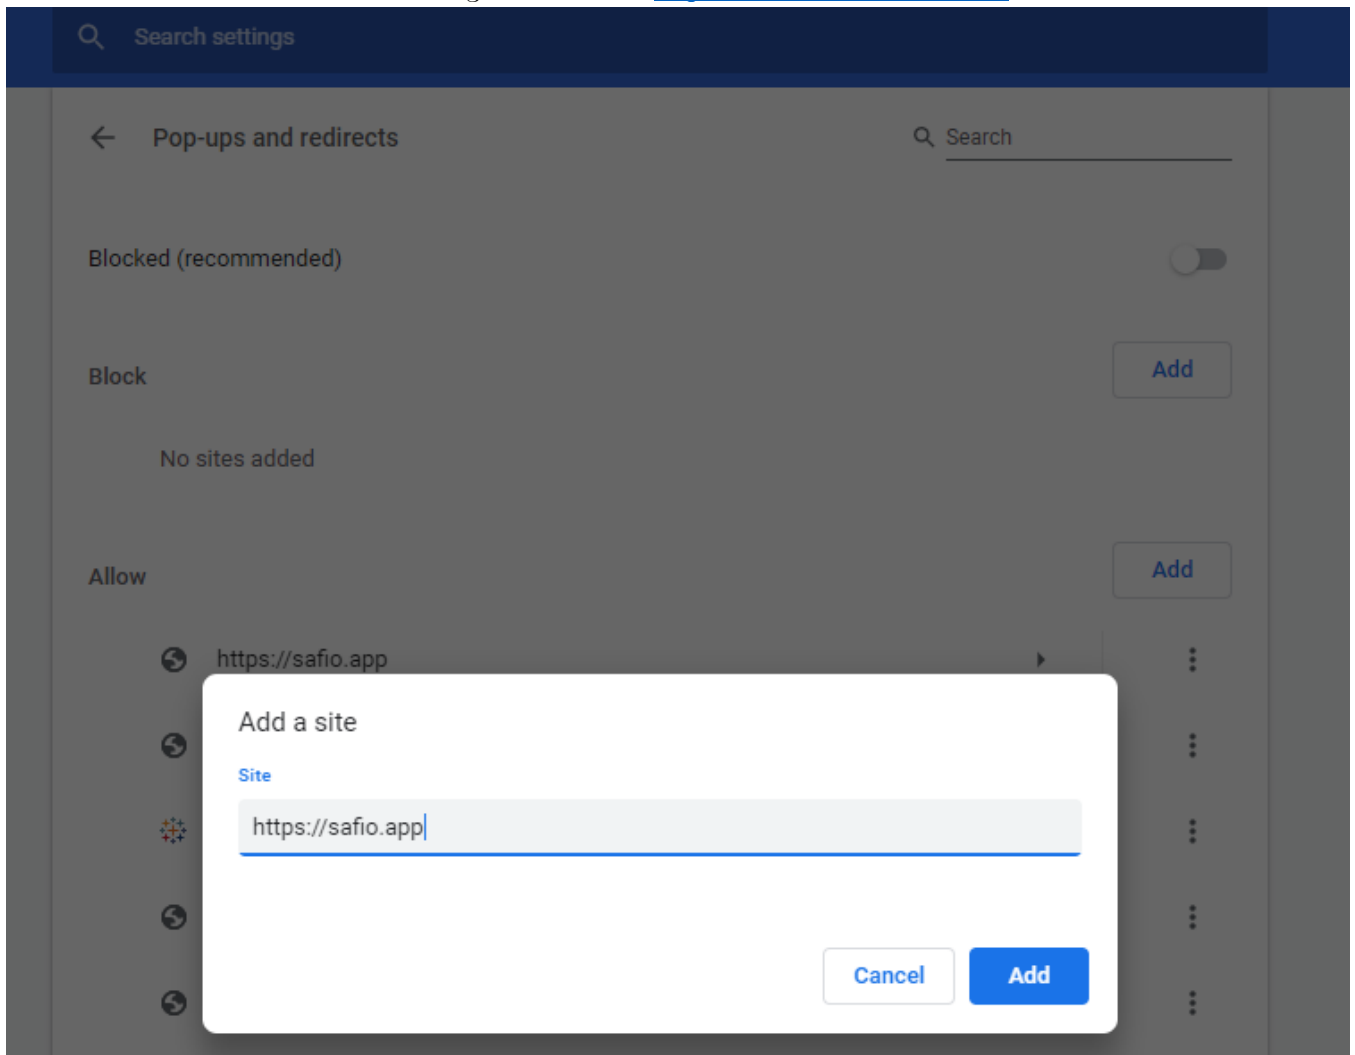

2. Navigate to the Privacy and Security settings and click Pop-ups and redirects

3. Click “Add” to the left under the Allow section and enter <https://safio.app> Click add.

4. Click Add under the Allow section again and enter <https://bi.safiosolutions.com> Click add.

This will make the SAFIO Solutions SAFT web application and Tableau analytics to be trusted websites which will stop Chrome from blocking multiple pop ups from these websites.
